

## Simple Instructions: Just enter your picks and the winners on the enter picks & winners sheet

Enter the name of one's pick to win in the large box in the office pool participants column. One does have to match the names of the teams I entered for the calculator to function properly. If you want to change how the names appear then do so on the "copy to new doc and email" sheet. **Make sure what you enter in the winner column matches up with how you enter the team name in the participants picks column** otherwise the calculator will not give credit for the correct pick if there are misspellings.

You can copy and paste the "copy to new document & email to participants" sheet into a new document and email it to participants so they can fill out their picks and email it back to you. Or just print it for them to fill in.

## ENJOY

					1st	70%	\$10.50	
					2nd	30%	\$4.50	
					3rd		\$0.00	
					last		\$0.00
